

SHAHZAIB CHANNA

About Me

I am a computer science under graduate from Quaid-e-Awam University of Engineering, Sciences and Technology Nawab shah (Class of 2024 to 2028). With a solid foundation in computer programming, data structures, and web development, I specialize in frontend web technologies. My expertise includes HTML, CSS, JavaScript, and modern frameworks like React.js and Angular. I am passionate about crafting clean, responsive, and user friendly web applications.
